I'll make sure the deliverable providers (START and ASPECT) send the products to y'all when they send them to the EU for messaging.

You guys in the field have all of the tools (geospatial viewer and Collector app) at your disposal to view data before we even see it. I'm unclear of the duplication of effort you are speaking of.

to me that's being pulled in the office, and in a format that I can post on the public webpage? How much turn around time will each operational period's data take to be provided for publishing?

Thanks
